

Telon

Telon is a curtain that hides it from view and reveals, in certain cases, a cupboard, a work area or multimedia space, or even all these things together. The curtain also has a soundproofing function that helps to limit the spread of sound in a room, preserving the intimacy of the sleeping area.

DESIGN Lievore + Altherr Désile Park

Telon è la tenda che nasconde Novel alla vista, rivelando all'occorrenza un armadio, uno spazio di lavoro o multimediale, o anche tutte queste cose assieme. La tenda ha anche una funzione insonorizzante che aiuta a limitare la propagazione del suono nella stanza, preservando l'intimità della zona notte.
